

# Pin Inserter/Extractor

*Helps provide better leverage, stability and control when inserting/extracting pins*

Completely cannulated, allowing use on long pins, where the instrument can be next to the bone or skin for stability and control. The grasping end is contoured to not block the surgeon's field of view. The handle is shaped so not to slide in the surgeon's hand and for better leverage. May also be used to pull a drain needle from the surgical site. The design helps to protect operating personnel from the sharp tip of the needle.

The slap hammer is designed to be screwed into a threaded pin inserter/extractor to help in removing pins in hard bone.

## PRODUCT NO'S:

3020	[Inserter/Extractor for 1/8" (3,2 mm) Pins]
3020-T-00	[Inserter/Extractor for 1/8" (3,2 mm) Pins, with Slaphammer and Case]
3020-T	[Inserter/Extractor for 1/8" (3,2 mm) Pins, Threaded to Accept Slaphammer]
3040	[Slap Hammer] Thread: 5/16" x 18
1015	[Sterilization Case]
