

Ortho Self-Retaining Retractors

Used to separate the femur and tibia during knee replacement procedures, where the calibrated design can help to balance ligaments

- ▶ Features a no-teeth design, available with flat or serrated outside blades
- ▶ Can also be used for spine surgery where the calibrated ratchet can be used to help accurately measure the size of an opening - useful in procedures to help assess bone graft needs
- ▶ Also useful in foot & ankle surgery

Standard Handle

PRODUCT NO'S:
